- 2017 4th Quarter Award Recipient – CIO Change Agent

PROJECTS

Dino's Jewelry - E-Commerce

- <https://brunz36-dinos-jewelry.herokuapp.com/>
- I created an e-commerce site for my previous business. This site was created using Ruby on Rails, PostgreSQL and JavaScript. This site is fully functional by using Stripe as the credit card processing service.

nextChapter – Zillow Clone

- <https://nextchapter-js.herokuapp.com/>
- This was a site designed to replicate Zillow. I used Ruby on Rails, PostgreSQL, and JavaScript to build this app. I also used omniauth for log in, impressions for the hit counter, kaminari for pagination and shrine/image-magick for image uploading and processing.
